PROFESSIONAL SUMMARY

Data/Product Analyst with 2+ years of experience translating business needs into data-driven insights through advanced analytics, A/B testing, predictive modeling, and automated reporting systems. Proven expertise in statistical analysis, user behavior analysis, and visualization with strong proficiency in SQL & Python and providing actionable insights to support key strategic decisions. Demonstrated success in collaborating with cross-functional UX teams, product teams, stakeholder communication, and implementing technological solutions and delivering high-quality BI outputs that generated $15,000+ in incremental revenue through data-driven decision making for clients across Europe and India.

WORK EXPERIENCE

DIGYMATEX (HORIZON 2020, EUROPEAN COMMISSION FUNDS SCHEME) — **MADRID, SPAIN**

Data Analyst/Strategy Analyst — OCT. 2023 – PRESENT

- Owned end-to-end analytics delivery for EU-wide research project, designing and building core analytical metrics from 1200+ cases across 10 KPIs. Built automated data pipelines and quality controls that improved ML model accuracy, reduced processing time by 30%
- Developed and validated 15 hypotheses through econometric analysis using SQL and Python. Led scenario analysis and implemented automated data quality checks that improved accuracy by 40%, turning ambiguous research questions into clean, reliable analytical systems
- Partnered with cross-functional teams including data science, product, and research by owning a suite of 5+ interactive dashboards. Explored AI-driven analysis opportunities to enhance predictive insights and advance data modeling frameworks
- Built automated compliance systems by streamlining GDPR-compliant data collection processes and API integrations using Python. Created comprehensive documentation for all BI processes, including data dictionaries, ETL procedures, and reporting workflows to ensure operational continuity

180 DEGREES (CONSULTING) — **MADRID, SPAIN**

Business Analyst — SEP. 2022 – JUN. 2023

- Developed comprehensive performance dashboards and Management Information reports, analyzing a $11.7M addressable market across 5 traffic segments and 3 distribution channels optimizing product growth strategies, pricing and market positioning.
- Executed extensive keyword research, monitored and evaluated digital trends and supported comprehensive implementation of SEO optimization strategies, resulting in a 40% increase in organic traffic and improved SERP rankings for key product terms
- Performed deep dive-customer analytics using GA4 data to uncover root causes and patterns, understand user behaviour patterns and optimize marketing campaigns, achieving 25% reduction in CPA through comprehensive funnel analysis and data-driven decision-making.
- Conducted in-depth market research and statistical analysis using data from 75+ user interviews and surveys, identifying high-value user personas, user-journey, and calculating key subscription metrics (LTV, CAC, churn). Designed and executed comprehensive A/B testing strategies for digital products, leading to a 30% increase in click-through rates and 15% increase in conversion rates

BLUE CHAPTER (CONSULTING) — **HYDERABAD, INDIA**

Strategy Analyst — JUN. 2022 – AUG. 2022

- Spearheaded product adoption strategy for a $1.2B North American and European business development initiative for an Italian SaaS startup, focusing on product-market-fit, go-to-market strategies, route-to-market optimization, channel selection, and target customer segmentation
- Partnered with UX and product teams to identify and analyze 15 potential use cases from 7 emerging datasets for process and conversion optimization. Implemented analytics solutions using SQL, DAX queries and data modeling, resulting in 25% improved reporting efficiency
- Developed financial projections, budget forecasts, ROI calculations and partnered with global teams on 6 revenue optimization initiatives analyzing full-funnel metrics and optimize price points across customer segments, resulting in an estimated 15% revenue growth.
- Created strategic communications document of the product for both internal and external stakeholders to align on business objectives

NATIONAL CENTRE FOR BIOLOGICAL SCIENCES (LIFE SCIENCES) — **BENGALURU, INDIA**

Junior Research Analyst — MAY. 2018 – JUL. 2018

- Optimized workflows by analyzing 100+ process benchmarks, diagnosing 15 critical operational bottlenecks, and implementing data-driven solutions that improved operational efficiency by 60% and reduced turnaround time

EDUCATION

IE BUSINESS SCHOOL — **MADRID, SPAIN**

Master in Management (MiM) - Business Analytics — SEP. 2022 – JUL. 2023

- GPA - 3.6/4.0 • MiM Careers and Placement Ambassador • Student Athlete – IE University Badminton
- Capstone Project – Acted as a Data Consultant and led end-to-end development of ML models for a major FMCG client, optimizing sales forecasting and promotional strategies. Focused on promotional uplift measurement and identified areas for process optimization. Developed data-driven strategies that enhanced overall business performance and informed key decision-making processes.

INDIAN INSTITUTE OF SCIENCE EDUCATION AND RESEARCH (IISER) — **TIRUPATI, INDIA**

Bachelor of Science & Master of Science - Life Sciences, Biotechnology, and Research — AUG. 2015 – AUG. 2020

- Project Leader - Leveraged advanced statistical techniques (ANOVA, regression analysis) and applied comprehensive analyses to large genomic meta datasets, presenting findings to a panel of 35 scientists and researchers.
